AIRSO is committed to running two events in Scotland each year provided that they receive the support of the Members and that they can encourage other to attend. I do therefore encourage all Members to come along and explore opportunities to invite others to come with them. As with all AIRSO Events you do not have to live in the area to attend.

### Programme

30 Places

- **Dealing with Large Goods Vehicles Safely**  
**Kevin Brown MAIRSO – Robert Wiseman & Sons Ltd**  
*No one wants to come into conflict with another vehicle and in particular a Large Goods Vehicle as the chances of survival are considerably reduced. There is however a real problem in that other roads users don't understand how to share the roads with large vehicles and this session will discuss many of these issues.*
- **Greatest Advances in Driving Safety**  
**Tim Shallcross MAIRSO: Partner, Shallcross Motoring Consultants**  
*A session which looks at advances in driving safety and not only identifies in your view what some of these may be but also explores just what contribution they have made in terms of casualty reduction and how indeed some of them actual perform.*
- **Integrating Road Safety in Scotland**  
**Michael Cleary MAIRSO (Hon): Superintendent, Head of Road Policing Division Scottish Police College**  
*Partnership working is even more essential in times of financial restraint and this workshop will explore how the emergency services in Scotland could better integrate what they do either operationally or in training and how that could evolve and impact on other service delivery practitioners*
- **Road Safety Current Affairs Update**  
**Graham Feest FAIRSO: Road Safety Consultant & AIRSO Secretary**  
*A look at some of the key issues and messages which are on the current road safety agenda*

\*\*\*
