

Fleetrisk24 Ltd

Mike Frisby

Account Development Manager

Safety when driving for business

Why do you do what you do?

- What is your goal?
 - Earn money?
 - Improve road safety?
 - Protect the client?

What is your clients goal?

- Do they know?
or, are they hoping to get guidance from you?
- Do you just give them what they ask for?
or, do you find out what they need?
- Are they being sold something they don't need?
- **Are they being sold something that makes a difference?**

Statistics say **NO!**

The same % of crashes still involve someone driving for work

What is the outcome of an injury crash?

An investigation of:

- The company
- The driver
- The vehicle

What will the investigator look at?

- Has the company conducted a risk assessment
- Do they have policy and arrangements documents in place
- Are they up to date – current and valid
- Are they communicated effectively to all relevant employees
- Is there ongoing monitoring and management

Will a driver training programme cover the scope of the investigation?

Will it cover the client against a corporate manslaughter prosecution?

Fleetrisk24 Ltd

- Create policy and arrangements documents
- Online fleet risk management (frm) system
- Help organisations with communication of P&A
- Offer additional services to address identified risks

Fleetrisk24 aims to

- raise the awareness of drivers to the risks of driving whilst at work, thus making them safer
- put the client into a robust defensible position in the event of a collision or incident occurring during business driving activity

Would your organisation stand the test

- Do you have policies in place?
- Do you manage your risk correctly?
- Is there an auditable trail?

If you do it and understand it ...
you will be better placed to advise your clients.
